

## FOUNDATIONS WRITTEN ASSIGNMENT

The goal of this class was to teach you the major functions of the police, courts and corrections. For your written assignment I want you to pick a current case and describe the role that the police, the court and corrections would have. It can be an ongoing investigation, case that is currently on trial – or one that is just completed – but I want it to be current in the news. You must research the case and provide me with the article or news source where you got your information. Discuss the facts of the case briefly – and then what if any role the police would fulfill. Then describe the process by which it would be or was handled in the court system. Lastly discuss what if any role corrections would play. We will be discussing corrections over the next few weeks therefore you should be reading about it now in advance of our discussions. This assignment must be typed and you are to attach any article that you use (if from the internet please print the article).

We will go over any questions you may have in class tomorrow. The due date will be May 3<sup>rd</sup>. No exceptions.
